Why the security detail? See below...

Get an Education not Just a Degree

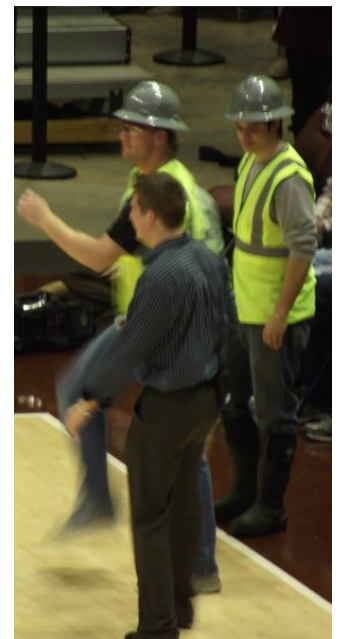

Hard Hats Required- The first organized "Hard Hats Required" event was huge! Fox Sports Midwest focused on the group several times. University Administration including the VP of Advancement, Director of Athletics, and the President of the University took notice. Several individuals from the community, in the industries you will be employed, were also impressed with your involvement. Believe it or not, your participation reflects well on the department and as a result will positively impact your education. **I would like to thank those of you who participated in the first of what we hope will become a tradition.**

Next Game Tuesday Feb. 15th!

With only two home games left in the season we hope to increase participation. TCM majors need to sign-up on the sign-up sheet on the department bulletin board, a sign-up sheet brought into class, or stop by the department office prior to Monday at 5pm. We will pick up tickets for you and have them available at Kemper Hall prior to the game along with hats and vests if needed. We plan to leave Kemper hall in unison at 6:30pm (be at the Kemper lobby at 6:20).

Career Expo 2011 Feb. 16th is the [Annual Career Expo at the Expo Center](#). Technology Management students will find a number of opportunities with companies like Kinze Manufacturing, Consolidated Electric, CSI, EFCO, and others. Facility Management students will find a number of opportunities with large employers (with large facilities). While this is not a traditional Construction Management recruiting event, construction students may find some employers may actually have construction divisions for their in-house construction needs.

Career Center Whiting-Turner internship openings at Bass Pro were posted last week. The interview sign-up sheet for Crossland Construction is available on the Career Center Website. A full-time construction management position in the Wichita area was posted yesterday. A number of Technology Management Internships and full-time positions for Technology Management students have been posted recently.

Who knew any of our majors could dance....
