

Get an Education not Just a Degree (repeat from last newsletter with extended deadline) Internship and job hunting season is on! As has been said in the past you must be present to win. To give our students a leg up on this spring's job hunt we are creating a "limited release" resume book for summer placement. If you will send a **one page** resume to tcm@missouristate.edu and indicate in the subject line if you are looking for full-time or internship placement we will get it to employers who contact the department office. If it is not one page and a "respectable" resume we will not include it. They should be in MS Word format. **Due Monday April 4th at noon!**

Nationally Recognized Construction Expert on Campus next week!

Matt Stevens, the President of Stevens Construction Institute will be on the Missouri State Campus April 4-5. Mr. Stevens is the author of several texts and has spoken at a number of national events. It will be out pleasure to welcome him to Missouri State University! He will address several classes then make a large group presentation at 5:30pm in Library 101.
