### Andy Craven, Logistics Management Solutions Internship-

"In this picture I am speaking with a transportation carrier about which route would be best to take from Newell, WV to Chicago Heights, IL. The product being shipped is 35,000 lbs. of construction chemicals (mortar, grout, sand, etc.) Later in the conversation I negotiated a rate with the dispatcher... The Department of Technology and Construction Management has provided valuable assets that will bring success in my career."

**Get an Education not Just a Degree!** Did you know that for several years running our ASC Construction Competition Teams have made us one of the most dominate schools in the region? Not only is this a source of pride for the department and university, often alumni talk about "Nebraska City". **After the construction club meeting on October 7<sup>th</sup> you will have the opportunity to learn about the getting involved in the ASC Competition.** We will guarantee if you are selected for a team you will get an education...

**Statics and Computational Calculus Tutoring!** Starting Monday Sept. 12, the department will provide tutoring for the previously mentioned classes in Kemper 205. Tutoring sessions will be every Monday from 5-8pm. This will be an opportunity for you to ask questions and work with other students. The purpose of tutoring is not to cover material you may have missed in class.

**ASC Competition Team Meeting** Students interested in participating in the ASC Competition must attend the information/selection meeting Sept. 7<sup>th</sup> after the Construction Club Meeting.

**Arkansas Football Game** Ultimately, athletics was not able to provide the required number of tickets for the Arkansas trip. Thank you to everyone who showed interest.

**Technology Management Major Student Organization Meeting** The first meeting of the year for Technology Management Majors will be held on Sept. 14<sup>th</sup> at 12:45pm in Kemper 100. The SME Student group will host a membership drive to include pizza and a discussion that will set the agenda for the upcoming year.

**Greenbuild Scholarship** See the link here: <http://www.usgbckansascity.org/> to apply for a paid trip to Greenbuild in Toronto Canada in October. Applications are due Sept. 13<sup>th</sup>.

**Welcome Back BBQ!** Approximately 100 students, faculty, and friends showed up for the annual BBQ. Thank you to the Construction Club Leadership and Dr. Gebken for an excellent BBQ!

**Construction Club** The first Construction Club meeting is September 7<sup>th</sup> at 5:45pm in Kemper Hall 102. The club has a full slate of events including discussion on **ASC Competition Team Selection**. Be sure to be at the opening meeting... For planning purposes, club meetings are scheduled for 9/7, 10/5, 11/2, 12/7.

**Internship Information Meeting** will be held September 16<sup>th</sup> in Kemper 116, 6pm. The Construction Club is hosting the meeting to give students a better idea of what students did at their summer internship, what kind of experience various companies provide, and in general better prepare you for the internship experience.

**Construction Career Night** Important Notice! The Annual Career Night will be held the evening of October 12 in JQH Arena. Some companies will want to interview on Oct. 13, this is the first day of Fall break. We STRONGLY suggest leaving this date available.

**TCM at the Springfield Cardinals.** There was a great turnout for the Springfield Cardinals game. Aside from great seats behind home plate, we were entertained with several majors riding and falling off their tricycles in the 8<sup>th</sup> inning race. The unnamed tricyclist in the picture is in last, not first, place. Thank you to APAC for providing tickets!

**Football** 30 DAYS AND COUNTING! Mark your calendars for Saturday, October 1<sup>st</sup>. It's going to be a short tailgating season with only four games, so each one has to count!

### Upcoming Events

**9/7/11 Construction Club & ASC Meeting**, Kemper 102, 5:45pm
