

Coach Ford: Yeah, I just think the three things that you need our history, facilities and spirit. We've got all three of those. We've got unbelievable basketball history with Coach Thomas and Spoonhour and even the guys before me, Barry Hinson and Cuonzo Martin, those are all championship level coaches. And obviously, our facilities are second to none. We visited many kids already and some that have visited other power five schools and said at our facility stack up if not better than those schools. I've just fallen in love with the amount of spirit in excitement that men's basketball gets here. So, when you put all those three things together, I just need to try to work my magic now. We've got what we need.
