Cheek Hall 102

## Why Earning a Master's Degree is Increasingly Becoming a Necessity?

**Dr. Pawan Kahol\***

Interim Graduate College Dean  
Missouri State University

### Abstract

Master's Degree is increasingly becoming the new Undergraduate Degree. Missouri State University offers ways to earn both the bachelor's and master's degrees within five years!

### Directly from Dr. Pawan Kahol:

*I grew up in northwest India. I became a naturalized citizen of the United States of America in 1994. Higher Education was and is instrumental in making me whatever I am today. I encourage all undergraduate students of MSU to (i) not only graduate from MSU but also (ii) consider Master's Degree at MSU.*

**All are welcome!**
