

SHATTERING THE SILENCES

Expect. Employ. Empower.

FIXED: The Science Fiction of Human Enhancement

A haunting, subtle, urgent documentary, **FIXED** questions commonly held beliefs about disability and normalcy by exploring technologies that promise to change our bodies and minds forever. Told primarily through the perspectives of five people with disabilities: a scientist, journalist, disability justice educator, bionics engineer and exoskeleton test pilot, **FIXED** takes a close look at the implications of emerging human enhancement technologies.

Disability Studies Minor Panel

A panel of faculty and advocates will discuss the film and how it relates to our new disability studies minor.

Those with disabilities who may not be able to fully participate because of the instructional format or design of the program may request an accommodation by contacting the Disability Resource Center in advance, drc@missouristate.edu or 417-836-4192.
