Subject: From Dr. Siscoe: Join EAB's Voice Sessions for Staff Career Well-being - Your Input Matters!

Dear Student Affairs Colleagues,

After several years of change in our industry and institution, we want to pause to focus on whether and how you are flourishing in your career. I'm excited to introduce a valuable resource called EAB's Voice Sessions (EVS), provided by our strategic partner for institutional success, EAB. This tool will help us understand your perspective and prioritize solutions to benefit our student affairs team.

Registration and Logistics:

EVS is an anonymous, interactive, 75-minute session facilitated by EAB's expert that combines focus group and survey methodologies. All responses are *completely* anonymous, and EAB will only report aggregate results. EAB cannot identify participants, nor disclose individual responses.

To register for EVS, use [this link](#). Please be aware that the session will be conducted in English, with closed captioning provided.

Please register for **one** of these three sessions:

- Tuesday, March 19, from 8:30-10:15
- Tuesday, March 19, from 12-1:15
- Thursday, March 21, from 8:30-10:15

Guidelines for participation:

1. Please follow the log-in instructions provided in your registration confirmation email. You can save the event details to your calendar during the registration process.
2. On the day of the session, simply click on the link provided in your registration confirmation email or calendar invite.
3. Make sure to have your laptop ready for the session. You will need functioning speakers or headphones to listen to the facilitator, but you will not need a microphone.
4. Please use either Chrome or Safari web browsers during EVS.
5. If you do not have access to a computer workstation, your unit will make space available in a department computer lab.
6. All supervisors are supportive of your participation in this EVS session... however, should you have any difficulty participating, please reach out to your department Director for assistance.

Confidentiality:

Confidentiality is of utmost importance to us and to our partner, EAB, who is fully committed to protecting the confidentiality of all EVS participants. To that end, EAB reserves the right to edit or withhold any qualitative or quantitative data from the sessions that may compromise participant confidentiality, in accordance with applicable law.

EAB will provide me with an anonymized report that shares key themes that emerged from these conversations in about 6 weeks. After that, we will share those key themes with you along with the action steps we plan to take to enhance staff career well-being at Missouri State University.

If you have questions, please don't hesitate to reach out to **Dr. Andrea Weber** (AndreaWeber@Missouristate.edu), who will serve as our liaison with EAB throughout this process.

Thank you for your valuable support in our collective effort to create an anti-burnout culture.

Sincerely,
Dee Siscoe

Dr. Dee Siscoe
